Career Objective:

Experienced Lead Fire Rescuer dedicated to team safety and effective emergency response. Seeking to leverage leadership skills and technical expertise for a dynamic fire rescue team.

Profile:

- Experienced Lead Fire Rescuer with 13 years of hands-on expertise in guiding successful fire rescue operations.
- Proven leadership skills in efficiently managing teams during high-pressure situations to ensure effective emergency response and community safety.

Experience:

Punjab Emergency Rescue (1122), D.G. Khan

Aug 2015 - Present

Lead Fire Rescuer

I am assigned to the following major responsibilities:

- To lead and direct my team in coordination to maximize efficiency and safety during fire suppression, evacuation, and rescue operations.
- Provide leadership in administering medical assistance and first aid to victims.
- To cover mass events such as religious festivals, Muharram protests, Independence Day, etc.
- Determine the optimal deployment of firefighting equipment, personnel, and resources to address the specific needs of the emergency.
- Facilitating training sessions and drills to enhance the team's readiness for various emergency scenarios (e.g., floods in the years 2022 and 2023).
- Ensuring accurate and thorough documentation of incident details, actions taken, and decisions made during emergency responses for analysis and evaluation of response effectiveness.

- Participating in community outreach and educational programs to raise awareness about fire safety, disaster preparedness, and emergency response procedures.

Punjab Emergency Rescue (1122), Muzaffar Garh

Jul 2010 – Jul 2015

Fire Rescuer

During my tenure at Punjab Emergency Rescue (1122), Muzaffar Garh, I was assigned to the major following responsibilities:

- To provide immediate assistance in emergencies including fires, accidents, rescues, and other hazardous incidents to mitigate risks.
- To help in the evacuation and extrication of individuals from hazardous situations.
- To administer basic medical aid and first aid to victims at the scene, stabilizing their condition before medical professionals take over.
- Carrying out the tasks directed by LFR or higher-rank officials and executing efficiently.
- Reporting incident details and actions taken, contributing to the overall documentation process.

Fatima Sugar Mills Limited, Kot Adu

Nov 2007 – May 2008

Electrician (Fazal Garh, Sanawan)

In Fatima Sugar Mills Limited, I was assigned to the following tasks:

Fatima Group

- Conducting tests and inspections on electrical systems to verify functionality, safety, and compliance with specifications.
- Calibrating and adjusting electrical equipment to ensure accurate performance and readings.
- Responding to electrical emergencies promptly and effectively, such as power outages, short circuits, and electrical failures.
- Inspecting electrical equipment for signs of wear, damage, or deterioration, and recommending repairs or replacements as needed.
- Connecting or attaching the ends of electrical conductors (such as wires or cables) to terminals, connectors, or other components.
- Maintaining accurate records of work performed, including repairs, installations, and inspections, to contribute to documentation and reporting processes.

Habib Rafiq (Pvt.) Limited, Islamabad

Dec 2006 – Jul 2007

Electrician (Defence Housing Authority Phase-II)

During my tenure at Habib Rafiq (Pvt.) Limited, I have completed many assignments and gathered extensive experience in the field of electrical systems and maintenance. My responsibilities included a thorough inspection of various

HABIB RAFIQ PVT. LTD.

electrical components, ensuring compliance with safety standards and regulations, and performing repairs and upgrades as required. Key responsibilities include but are not limited to the following:

- Utilizing my troubleshooting skills to identify and resolve issues promptly during electrical emergencies.
- Safely connecting and terminating electrical wiring, cables, and conductors to establish reliable and secure electrical connections.
- Responding promptly and effectively to electrical emergencies, such as outages and faults, to restore normal operations.
- Performing skilled installation, repair, and maintenance of electrical systems, ensuring compliance with safety standards and regulations.
- Installing cable glands to provide secure and reliable entry points for cables into electrical equipment or enclosures.
- Keeping thorough records of work activities, including repairs, installations, and inspections, to contribute to comprehensive documentation and reporting processes.
