WORK EXPERIENCE

FYP IN IOS (KIDS TALKING URDU DICTIONARY)

In this Project there is a parent and Its Multiple Childs.Parent assign the class to child likeClass1,Class2...etc and words. Words already exists in All classes.When Parent assign the words to child then child can see the screen of words that's parent assign. That's screen show the meaning of words and description and also in audio form with picture . Child can easily read and listen the words. Parent can also assign the frequency of words Like weak child listen five times audio and average child listen three times and intelligent is one time etc.
